The goal of the Special Forces is to disempower, demobilize, and disassemble the Progressive Marxist (Communist) movement in the Republic, be it FEDERAL, STATE, OR LOCAL.

Americans have shown a great resiliency from external attacks from the Revolution to Pearl Harbor to 911. Now we must withstand this internal attack, disenfranchise the Marxist movement, and then demonstrate the same resilience as we return the Country to a Constitutional Republic.

The time is here for the Special Forces to mobilize and enter the battle field of ideological warfare. We need volunteers to follow in the footsteps of the founding volunteers and likewise band together as a united force. One must be prepared to not only offer his/her knowledge and expertise but also their time, talent, and finances by physically getting involved in America's Armageddon. It is not merely enough to voice one's opposition but one must walk the talk.

I am in no way advocating physical violence but I am advocating legal methods to combat this satanic induced ideology, before the Marxist initiate violence. By this time you should be well aware of the necessity of legally dismantling the Progressive Marxist power structure that they have so patiently assembled.

However, to accomplish these goals we need hundreds, if not thousands, of Special Forces Volunteers.

One individual can become a tremendous asset in the ideological battle.
